

Welcome!

CALIFORNIA ALLIANCE FOR PREVENTION FUNDING

California Alliance for Prevention Funding

Build a culture of health for all Californians, reduce disparities and contain health costs through education and state level advocacy for new and sustained funding to promote health equity and prevent the leading causes of illness and injuries, particularly through upstream primary prevention

California Alliance for Prevention Funding

CAPF supports establishment of a statewide mechanism to assure long term, sustainable funding of local and state initiatives to promote health equity and prevent the leading causes of illness, injury, and premature death in California.

California Alliance for Prevention Funding

Funding should support policies, systems and environmental changes and community programs that work outside of health care settings to make California's communities more conducive to health.

California Alliance for Prevention Funding

Funds should be distributed and coordinated among: local health departments; community-based, regional and statewide nonprofit organizations; and state government according to established criteria.

California Alliance for Prevention Funding

Funds must benefit all Californians and promote greater equity and health, reaching residents from urban to rural areas, young and old, and across California's diverse races and ethnicities.

California

It's all around us

14 million Californians
live with a chronic
condition

Six most common chronic diseases

- ▶ Arthritis
- ▶ Asthma
- ▶ Cardiovascular disease
 - ▶ Stroke
 - ▶ Hypertension
 - ▶ Coronary Heart Disease
 - ▶ Congestive Heart Failure
- ▶ Diabetes
- ▶ Cancer
- ▶ Depression

It's expensive

\$14 billion in
medical costs for
just those six
conditions

Hermann Biggs

1859-1923

Public health is purchasable.

Within natural limitations a community can determine its own death rate.
